### Rackmount Power Distribution - Professional 15 Amp

| Model    | Description  |
|----------|--|
| ETA-C15D | Professional 10 Outlet 15A Rackmount Power Distribution with Single Retractable Rack Light & Digital Voltmeter |
| AP-GNL18 | Gooseneck Light  |

### Rackmount Power Distribution - Professional 20 Amp

| Model     | Description  |
|-----------|--|
| ETA-S20RT | 9 outlet 20A AC Power Distribution, Surge Suppression with Remote Activation |
| ETA-S20   | 9-Outlet, 20-Amp AC Power Distribution & Surge Suppressor                    |

### Rackmount Power Distribution - 15 Amp

| Model     | Description  |
|-----------|--|
| ETA-PD8A  | 9 Outlet / 15A Rackmount Power Distribution            |
| ETA-PD8LA | 9 Outlet / 15A Rackmount Power Distribution with Light |

### Modular Power Distribution - Power Module Sequential Controllers

| Model    | Description                           |
|----------|---------------------------------------|
| ECS6RM   | 6 Stage Electrical Control Sequencer  |
| ETA-SEQ6 | 6 output Electrical Control Sequencer |

### Rackmount Power Distribution - Sequential Power

| Model | Description   |
|-------|---|
| ECS-3 | (Atlas Brand) 9 Outlet 15A Rackmount Sequential Power Distribution with Single Retractable Rack Light & Digital Voltmeter |

### Modular Power Distribution - Power Module Sequential Controllers

| Model          | Description   |
|----------------|---|
| ETA-SEQ6 PS    | 6 output Electrical Control Sequencer with power supply |
| TSD-PS24V500MA | PSU FOR ETA-SEQ6  |

### Modular Power Distribution - Power Modules

| Model       | Description   |
|-------------|---|
| ETA-15SH    | 2 Outlet 15A Stand-Alone Power Distribution   |
| ETA-20SH    | 2 Outlet 20A Stand-Alone Power Distribution   |
| ETA-ECM30   | NEMA L5-30R 30A Power Distribution Raceway Module   |
| ECM-20M     | 2 Outlet 20A Power Distribution Raceway Module with Current Monitoring                            |
| ETA-ECM2063 | 12 outlet Complete Raceway filled with 3 20A circuits of power distribution and surge suppression |

### Modular Power Distribution - Power Module Housing/Raceways

| Model       | Description                                      |
|-------------|--|
| ECM-RACEWY1 | Electrical Housing for up to 1 ETA Power Module  |
| ECM-RACEWY3 | Electrical Housing for up to 3 ETA Power Modules |
| ECM-RACEWY6 | Electrical Housing for up to 6 ETA Power Modules |

### Modular Power Distribution - Sequential Power Accessories

| Model    | Description                  |
|----------|------------------------------|
| ECM-3BP  | (3) Blank Panels for Raceway |
| ECM-ACIN | Cable Pack for Raceway       |
| ECS-KSW6 | Key Switch for ETA-ECS6RM    |
| TSD-RMK  | RACK MOUNT KIT FOR ETA-SEQ6  |

### Power Distribution - Wall Mount Bracket

| Model     | Description  |
|-----------|--|
| WPD-KSWCC | The WPD-KSWCC is a decor style wall plate featuring an industrial tubular key switch that activates/deactivates a hard latch contact closure. This product is designed to be used with compatible ETA and Atlas Power products that are designed to be remotely activated such as the ECS-6RM, ETA-SEQ6, and ETA-S20RT. The unit is constructed of durable ABS material and includes a red LED system status indicator as well as a removable label guard for easy and clean designation of key switch function. The unit has a four conductor interface connection designed to work with the included Phoenix style connector. This unit can function in remote activation scenarios up to 200 feet from the controlled unit using 22-gauge wire. |
| WPD-KSWM  | The WPD-KSWM is a decor style wall plate featuring an industrial tubular key switch that activates/deactivates a momentary contact closure. This product is designed to be used with compatible ETA and Atlas Power products that are designed to be remotely activated with a Contact Closure type switch (ETA-S20RT, ECS-6RM, ETA-SEQ6, or stand alone models ECM20). The unit is constructed of durable ABS material and includes a red LED system status indicator as well as a removable label guard for easy and clean designation of key switch function. The unit has a four conductor interface connection designed to work with the included Phoenix style connector.  |
